The frame house is a one and one-half story three bay by two bay house on a concrete block foundation. It has an odd-shaped gable roof with the front side extending a greater depth than the rear. The front of the house has a central entrance with a window on each side and two gabled roofed dormer windows on the roof. The house has a rectangular floor plan. The date of construction appears to be mid-20th century.

The frame house is located on the east side of Rt. 65, .1 mile south of the intersection with I-70. It is grouped with a number of houses on ¼ to ½ acre lots in a short stretch along Rt. 65. These houses dating from the 1930s to the present time.

The most notable feature of this house is its shape being a small house but distinguished by its asymmetrical gable roof. It sits on a level tract of land and has a high concrete block foundation covered with cement. The entranceway is marked by a small gable hood roof supported by brackets which is the only ornamentation on the house. Six-over-six windows are in the other two bays on the front of the house and smaller six-over-six windows on the dormers on the roof. A small flue protrudes from a southern end of the gable roof. The exterior is covered in aluminum siding. The roof is asphalt shingle.

The property contains no significant outbuildings.
